DETAILED ACTION

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 39-49, 75-82, 84, 85, and 87, drawn to a cable insulation stripper apparatus.

Group II, claim(s) 50-51, and 86, drawn to a cable processing apparatus.

Group III, claim(s) 52, drawn to a process for operating a processing apparatus.

Group IV, claim(s) 53-56, drawn to a cable processing apparatus.

Group V, claim(s) 57-58, drawn to a cable processing apparatus.

Group VI, claim(s) 59-62, drawn to a cable processing apparatus.

Group VII, claim(s) 63-65, drawn to a process for controlling a cable insulation stripping apparatus.

Group VIII, claim(s) 66-74 and 83, and drawn to a continuous cable processing apparatus.

2. The inventions listed as Groups I, II, III, IV, V, VI, VII, and VIII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The special technical feature for each Group is as follows:

Group I has a tool support feed means formed for a controlled lateral drive.

Art Unit: 3722

Group II has an encoder.

Group III employs a monitor.

Group IV has continuous belts.

Group V has a common baseplate.

Group VI has processing stations.

Group VII uses a program for controllable driving.

Group VIII has at least one knife station are provided in the processing claims, and means for continuous cable processing.

Therefore the Groups I-VIII, do not have the same special technical feature, and therefore the Groups I-VIII do not relate to a single general inventive concept.

3. A telephone call was made to M. Robert Kestenbaum on 3/30/2000 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
